M.C.A. - Full Stack Development, CGPA: 8.60 / 10

Skills

- **Technologies:** HTML, CSS, JavaScript, ReactJS, Bootstrap CSS, Tailwind CSS
- **State Management:** React Context API
- **Version Control Tools:** Git, GitHub, VS Code
- **Web Technologies:** REST APIs, HTTP/HTTPS, Responsive Design

Experience

AccioJob Pvt Ltd — Software Developer Engineer (Intern) Oct 2024 - Mar 2025

- Developed responsive and interactive user interfaces using React.js, Bootstrap, HTML, CSS, and JavaScript.
- Built reusable React components and optimized performance for a seamless user experience.
- Worked on component-based architecture in React.js, leveraging props, hooks, and state management.
- Worked with Git and GitHub for version control and team collaboration.

Projects

BlinkIt Clone — React.js, Bootstrap, HTML, CSS, JavaScript Jan 2025 - Feb 2025

- Developed the complete frontend, featuring dynamic product listings and cart functionalities.
- Designed and implemented responsive UI components ensuring cross-device compatibility.
- Utilized React hooks (**useState**, **useEffect**) and component-based architecture for efficient state management.

YouTube Clone — React.js, Tailwind CSS, HTML, CSS, JavaScript Feb 2025 - Mar 2025

- Developed a responsive YouTube Clone with video listings, search bar, sidebar navigation, and dynamic recommendations.
- Utilized React Hooks and asynchronous data fetching to improve functionality.
- Focused on responsive design and consistent performance across all devices.

Spotify Clone — HTML, CSS, JavaScript, Font Awesome June 2024 - Oct 2024

- Developed a fully responsive Spotify landing page with modern UI techniques.
- Applied CSS flexbox and grid layout to ensure a seamless layout across devices.
- Integrated Font Awesome icons to enhance the design and improve navigation aesthetics.

Certifications

- HTML, CSS and Bootstrap - Edureka
- Javascript - Edureka
- ReactJs - Edureka
