OBJECTIVE

Driven and highly skilled MCA student specializing in Full Stack Web Development, with a strong command of the MERN stack (MongoDB, Express.js, React.js, Node.js). Experienced in building scalable, high-performance web applications that deliver seamless user experiences and robust, efficient backend systems. Known for tackling complex challenges with innovative solutions, staying ahead of industry trends, and adopting cutting-edge technologies. Eager to bring a forward-thinking mindset and passion for development to any team, committed to driving impactful results in fast-paced, dynamic environments.

INTERNSHIP

- **Edureka** *Feb 2022 – Sept 2022*
  MERN Stack Development Remote [⬤]
  ◦ Key Skills: ReactJS, JavaScript, GitHub, HTML, Bootstrap, CSS, Git, Postman, MongoDB, Express.js, NodeJS
  ◦ During my internship at Edureka, I worked on several projects that allowed me to enhance my skills in various technologies including the MERN stack.
  ◦ The hands-on experience from the projects has been invaluable in solidifying my understanding of Full Stack Web Development.

- **Cognifyz** *April 2024 – June 2024*
  Web Development Remote [⬤]
  ◦ Key Skills: ReactJS, JavaScript, GitHub, HTML, Bootstrap, CSS, Git, Postman, MongoDB, Express.js, NodeJS
  ◦ During my internship at Cognifyz, I worked on several projects that allowed me to enhance my skills in various technologies including the MERN stack.
  ◦ The hands-on experience from the projects has been invaluable in solidifying my understanding of Full Stack Web Development.
